1. On October 15, 1974, the Board adopted Order No. 74-106 prescribing waste discharge requirements for Williams & Lane, Inc., hereinafter called the discharger. The Order placed effluent limits on truck washing and vehicle maintenance area wastewater discharging to a storm drain tributary to Cordornices Creek. The discharger was also to cease discharge of oily wastes from two other areas. All requirements were to be met by June 1, 1975.

On June 6, 1976, the discharger informed the Board the discharge of truck wash and vehicle maintenance wastewater had been terminated by diverting these wastes to the municipal sanitary sewer.
